Miscellaneous "B" 1919-1920 (663)

"The Lodge." 125 Hargrave St.
Winnipeg. Nov. 13th 1919.

Dear Sir:

I enlisted in the Summer of 1915 after completing the 3rd year at Harbord Collegiate, Toronto. I returned from overseas July 1919. Upon my return I had no idea of the kind of work I would take up, but being offered a position with the Dominion Bridge Company in Winnipeg, I accepted and commenced work here in the Draughting office in August. I have decided that I would like to make engineering my life work. a University education being practically essential however.

Would you be so kind as to give me your advice upon the advicability of such a course after such an absence. I am now 22 yrs old. As I have not matriculated can I enter without it, or what is the least number of subjects is it necessary to write off. I would not like to spend any more time at High School as I cannot afford it.

Would you also be good enough to give me an idea of the fees.

Hoping I am not putting you to too great trouble. Yours sincerely

H. Rupert Bain

Winnipeg.

Dear Mr. Cain:

It seems to me that the best plan would be to consult Professor R. H. MacLean of the University of Manitoba in Winnipeg with regard to your undertaking a regular course in Engineering. He is in charge of classes for returned soldiers, is very sympathetic and would be able to give you, I am sure, excellent advice.

We have classes for returned men, but they will only run until the 30th of June next summer, and I am doubtful whether you could prepare yourself for entering Applied Science by a year from now in these classes, though we do not require full matriculation. The most necessary subject is higher Mathematics. It seems to me that possibly arrangements might be made through Professor MacLean whereby you might get the necessary instruction in Winnipeg while retaining your position. Also, there is a very good Faculty of Applied Science and Engineering in Manitoba and you could get your training there without breaking your connections.

Yours sincerely,

President.

You are hereby invited to attend a meeting of the Association on

Tuesday, Oct. 22nd, 1919

at 8 p.m., in the

Social Service Building

University, College St., City

This meeting is to organize the study groups for the 1919-1920 winter session. The Executive Council have decided to offer six subjects, viz., Economics, History, Psychology and Logic, English and Rhetoric, Banking and Public Finance, Political Philosophy.

A minimum enrollment of twenty students in each group is necessary. If the number of students is not sufficient to take advantage of these six subjects, then the study groups which attract the larger numbers will only be initiated.

Classes will commence during the week beginning Oct. 27th, 1919, and will probably be located in the Social Service Building, University, College Street.

If you desire to enroll, please attend, or forward to me your name, address and subject preferred.

BRYN MAWR COLLEGE

Bryn Mawr, Penna., November 29th, 1919

President Robert A. Falconer

University of Toronto

Dear President Falconer,

The object of this letter is to inquire whether the University of Toronto is at all interested in the opportunities offered by the Teachers Insurance and Annuity Association, recently founded by the Carnegie Foundation, for securing retiring allowances for college professors.

Here at Bryn Mawr we are seeking some means of establishing a system of such allowances, and have become convinced that the Teachers Insurance and Annuity Association offers us better advantages than can be secured elsewhere. The fact, that it is prohibited by its charter from issuing a participating policy seems to us a grave defect in its organization. Since an eminent authority on insurance, Mr. George Richards, has, in the BULLETIN of the American Association of University Professors for October (pp. 64, 65), pointed out how, under the laws of the State of New York, this defect may be remedied, we are interested in seeing whether those who control the Teachers Insurance and Annuity Association cannot be induced to have their charter changed.

We wondered whether the University of Toronto was studying the matter and, if so, what aspects of the problem had attracted attention with you.

Obviously, if several institutions are interested in the feature which causes us to hesitate, it would be for our common interest to take some concerted action to see whether this obstacle cannot be removed. Since the Association of University Professors has so publicly antagonized the Teachers Insurance and Annuity Association it seems to us better that any effort to induce the Trustees of that Association to change its charter should come from prospective customers quite independently of the Association of University Professors.

I shall, therefore, be very grateful if you will tell me whether you at the University of Toronto are interested in the matter and, if so, what aspects of the problem have interested you.

Very sincerely yours,

George A. Barton,

Chairman of Faculty Committee on Pensions.

Professor C. A. Barton,
Bryn Mawr, Pa.

Dear Professor Barton:

The University of Toronto has now for about a year been taking advantage of the opportunities offered by the Teachers Assurance and Annuity Association and so far I have heard no complaint as to any limitation arising out of a prohibition in the charter against issuing a participating policy. I do not think therefore that our Board of Governors would at present be likely to make representations with a view to having a change made. However, I will send your letter to one of our staff who is deeply interested in this work, and if he represents to me any different point of view I will communicate with you again.

Yours sincerely,

President.

Mr. Robert Beatty,

Dear Mr. Beatty:

I have received your communication asking for recognition of the Players' Club by the Caput and enclosing the constitution. The purposes and constitution appeal to me strongly, and I am confident that the Caput will give its authorization. On my own responsibility I would ask you to take what steps you deem necessary in carrying out the plans assuming that the authorization will be given when the Caput meets.

Yours sincerely,

President.

Professor S. Beatty,

University of Toronto.

Dear Professor Beatty:

As you are aware there are to be changes in rooms in the West Wing in order that the Psychological Department may be housed in new quarters after the Superintendent's Office has moved out of its present rooms. Will you be good enough to communicate with the Superintendent of Buildings so that he may let you know when the changes will take place ? In any case I think nothing will be done before August.

Yours sincerely,

President.

Mrs. Bertha Bell,
Thornbury, Ont.

Dear Mrs. Bell:

I have to apologise for not having answered your letter before but partly owing to my absence from the city and partly owing to press of work I have not been able to take the matter up.

On inquiry from the Registrar I find to my regret that your son on his supplemental examination has made even lower marks than he did in English, Latin and French during the spring. The Dean of the Faculty of Applied Science has been absent, but I hope to see him to-morrow. I know that the desire would be to do anything in our power to help a returned soldier to complete his course, but it is not a kindness to grant admission to a student if the evidence is that he will not be able to profit by the work of the year. To-morrow I will hand the letter to the Dean who has now returned and will ask him to give the case of your son the most careful attention.

I am,

Yours sincerely,

President.

Sir Robert Falconer,
President,

Dear Sir;

At a meeting of the representatives of the students of those Faculties desirous of holding their annual At Home in Hart House, it was felt that, for functions of this character, the hour set for closing, namely 12 o'clock midnight is, under present conditions, too early, and that, in order to make them the complete success they should be, to ask the Caput to consider whether it would not be possible to extend the closing hour to 2 A.M. The facilities that the Hart House will give us for conducting these affairs on a large scale make it desirable that it should be used for these official functions. If they were held outside the University, there would be no restrictions as to the hour at which they should close.

In view of these facts, we respectfully request that permission be given to have the closing hour extended to 2 A.M.

I am afraid that we could not get a meeting of students which it would be worth your while coming to Toronto to address on October 27th. We are all enlisted now on the War Memorial Fund and every effort is being used to make it a success. This will run for several weeks. In any case it is always extremely difficult to get students to come out to lectures. They simply won't come and I am always in a state of more or less nervousness after the announcement of a public lecture till it is over because of the kind of attendance we get.

I feel that I owe you many thanks for taking me to the classical luncheon. I look back to it as a very pleasant episode in my recent visit to the United States. We are anticipating much pleasure next week from seeing so many of the graduates at the Commencement ceremonies.

I am interested in what you say with regard to the American attitude to Canada. It will take a good while to get this changed, but I hope we may be of service in bringing the two branches of the English-speaking world together.

Dear Sir,

A friend & myself would very much like to know if there are any research scholarships or government grants for research work in the University for which we could apply.

My friend took her ordinary degree two years ago in Chemistry

& botany; I took an ordinary degree in physics & mathematics in 1914-15 & both of us graduated at the Manchester University.

We were both working for the "War Office Air-ship Fabrics Department" in the Coll. of Technology on air ship fabrics & my friend is still there; I am now working on fuels under the "Air Pollution Board" of the Manchester Corporation.

To be quite honest for

wish to carry out research work in some University either in America or Canada but it is essential that we should, at the same time be able to keep ourselves. There are such grants & scholarships over here especially at the Coll. of Technology, as you probably know, & we wondered whether it is so with you & whether our qualifications are sufficient.

If there is any possibility might

I have some details of the research work being done on both the physics & chemistry side?

I hope I am not troubling you too much.

Dear Sir or Madam,

I have the privilege of being the Deputation Secretary for the above Society and have obtained your name and address from our headquarters, as I understand you are interested in Missionary work.

At the request of our Committee I am visiting the U.S.A. and Canada for six months, sailing D.V. on December 6th by the R.M.S. "Mauretania", for the purpose of explaining the nature and method of our work, addressing meetings wherever opportunity occurs, and organising new centres of interest.

My first engagement will be at the Student Volunteer Conference, Des Moines, where Mr. Robert Wilder has kindly said he hopes to be able to arrange a sectional meeting for me one afternoon. After that my plans are uncertain, and I should be so grateful for any help or suggestions which you could give me as to possible openings in your locality, either for Drawing Room Meetings, Lantern Lectures, Church Services, Young People's Gatherings, Adult Schools, etc.; in fact, any meeting, large or small, where the audience would appreciate hearing about the great need for World Wide Evangelisation, illustrated by the story of Mr. C. T. Studd's work in the Heart of Africa.

I should like to make it clear that my purpose in visiting the States and Canada is not to ask for money, but rather to create a deeper missionary interest by hearing of what can be accomplished through simple faith in God and obedience to Christ's command to "go into all the world and preach the gospel to every creature."

As you will recall from the reading of our literature we are out for the Unevangelised and Unoccupied Fields, and do not wish in any way to interfere with the work of other Societies, but rather to rouse the interest of Christians in general that they may be led to support their own section of Missionary Work.

If you are able to assist me in any way, would you kindly reply to me at:-

May I also ask for your earnest prayer for the success of this tour?

DIRECTOR: PROFESSOR A.-J. DE BRAY, D. S.

MONTREAL, August 5th, 1919.
32 SUSSEX AVENUE

Dear Sir;-

As the work of Belgian Relief is now discontinued, its organ "Pro Belgica" to which you were good enough to subscribe, must likewise cease to exist. A final number of twenty pages, will be issued in the course of a few days, which will both show the results that were obtained, and convey an expression of our gratitude to all those who contributed in securing them.

As "Pro Belgica" after the appearance of its final number, will be obliged to close all its accounts, we beg that you will kindly remit to us the balance due on your subscription, which amounts to $ 1.00 for one year -

Thanking you in anticipation, and with a cordial expression of our sincere regard,

We beg to remain, dear Sir,

Faithfully yours,

For the Administration.

Professor E. K. Brandus,
University of Alberta.

Dear Professor Brandus:

I have been interested in receiving your letter on my return this morning from the United States. I am afraid that President Tory must have received some misinformation with regard to the English Department. Professor Alexander, as far as I know, is not intending to retire this year, and the position we are endeavouring to fill is one that may not possibly be more than an Assistant Professorship or at best an Associate Professorship, with a salary below that which you are now receiving, and it is one you could hardly be expected to apply for were you fully acquainted with the conditions.

Of course I am fully aware of your excellent work and of your literary productivity. I should fancy, however, that perhaps in McGill there might be a Chair that would be such as you could fill with some measure of satisfaction.

With kind regards, I am,

Yours sincerely,

President.

M. J. Brennan, Esq.,
Imperial Tobacco Company of Canada,
44 Scott Street,
Toronto.

Dear Mr. Brennan:

I am returning to you Sir Mortimer Davis' letter after having just written to him acknowledging the cheque on behalf of the Imperial Tobacco Company. I realise fully that we owe this handsome contribution very largely to your own interest in the matter, and will you allow me again to express to you our sincere gratitude for your kindness.

Yours sincerely,

President.

Sir :-

Enclosed herewith please find a copy of letter from the President of Colombia. I endeavored to obtain an English translation of same in Winnipeg, but was not successful.

If either yourself or one of the Professors on your staff can send me a translation, I shall be most grateful, and shall be pleased to remit any fee connected therewith.

Very Truly yours,
B. W. Broatch,

Señor:

Acuso a Ud. recibo de su atenta carta de fecha 24 de julio del año en curso, en la cual me ofrece sus servicios como aviador. Para ello manifiesta Ud. estar dispuesto a presentar honrosos certificados.

No obstante que el actual Gobierno apenas principia a ocuparse en el estudio de este importante ramo de la locomoción, me es grato informarle que su carta será pasada al Ministerio de Guerra, a cuyo cargo está este asunto, y con el cual puede Ud. entenderse directamente.

Soy de Ud. atento servidor,

My dear Sir:

I received your communication with regard to the re-organisation of the non-permanent militia in accordance with which it will be necessary to have a Commanding Officer of the University of Toronto C. O. T. C. appointed. After considering the matter fully I beg to recommend that Colonel H. H. Lang, Director of Military Studies in the University, be appointed Commanding Officer of the University unit.

Yours sincerely,

President.

Sir R. A. Falconer,
President, University of Toronto.

Dear Sir Robert,

At the postponed meeting of the Selection Committee for the Rhodes Trust, held on Thursday, I was elected to represent Newfoundland at Oxford for the year 1918.

I wish to thank you for the interest you showed in my application, as well as for your useful letter.

You may rest assured that I shall do my best to be worthy of the University of Toronto. I expect to leave for England about the middle of September, and shall take up the study of Law.

Trusting that the first year of Reade will be a successful one for the U of J., and again thanking you,

I Remain

Yours very Sincerely

William J. Brown

Professor E. K. Brown,
Upsman Hall,
Princeton, N.J.

My dear Professor Brown:

Professor De Wulf was in Toronto for nearly three months last spring and made a wide circle of friends while here. He gave a public lecture on "Cardinal Mercier" and a series of eight lectures on "Mediaeval Philosophy" at which there was a large attendance sustained well throughout the course. He is a very scholarly man, and his English is remarkably good. I should think that no audience would have difficulty in following him. I have been told by the authorities at St. Michael's College, which is one of our affiliated institutions, that he is likely to return this winter, and if so he will be gladly welcomed.

I look back with great pleasure to my visit to Princeton. Last week we enjoyed very much having Dr. Henry Van Dyke with us.

With kind regards, I am,
Yours sincerely,

President.

The Rector,
Universite Libre,
Brussels.

My dear Rector:

I have had great pleasure in receiving your letter with its enclosures with regard to the opportunities you offer for graduate work. It is a great satisfaction to know that after all your troubles you are now in a position to offer these courses, and I hope that it may be possible for some of our students in the future to avail themselves of what you can present to them. Hoping that your future will now be assured, and that you will soon be stronger than ever,

I am,

Yours sincerely,

President.

January 23rd, 1920

Rev. A. E. Budge, B.A.,
39 Cliffe Avenue,
Hamilton, Ont.

Dear Mr. Budge:

I understand that the Rev. A. H. Thomson, M.A., has been recommended by Dr. J. H. Smith of St. Catharines as a suitable man to be minister at St. John's Church, Hamilton, which is now vacant. Mr. Thomson has asked me to write to you with regard to him.

I have known him and his wife for very many years, in fact Mrs. Thomson from childhood, as she was the daughter of the Rev. John Morton, Missionary in Trinidad. Mr. Thomson, himself, was a missionary in Trinidad for many years, and only left because of reasons of health. He is a hard working man, and Mrs. Thomson is a very energetic woman in all Church work. I should think that there would be no more faithful minister found. I do not know that I have ever heard Mr. Thomson preach, but his record in Knox Church, Picton, Nova Scotia, was very good. They have a fine family, the eldest daughter having graduated in Toronto with high honours in Household Science, and the son being now in Applied Science. I am glad to do anything I can to help Mr. and Mrs. Thomson.

Yours sincerely,

President.

J. H. Burnham, Esq., M.P.,
Ottawa, Ont.

Dear Mr. Burnham:

On my return this morning from Quebec I have your letter and I am afraid that I do not share your strong views in the matter to which you refer. I agree with you that the amount of restraint that should be put upon individual liberty should be as small as possible, taking into account the desires of the people as a whole and what they think is for their welfare. I am optimist enough to believe for a period of time not very long in extent that the people will decide for themselves by expression of opinion what they will accept and regard as healthy legislation, and I feel confident that in time they will settle for themselves how far legislation is healthy and how far it is not.

I presume that what you refer to in your letter was a remark made in an address that I delivered to the Social Service students. The burden of that address was to the effect that it is not economic conditions merely that are at the root of our present troubles, but that there is a vast amount of ill-will due to world conditions. In fact that this is not due primarily or mainly to prohibition or repressive legislation is shown by the conditions in Europe, which are very much worse than they are with us.

I am,

Yours sincerely,

President.

April 26th, 1920

Mr. H. Burnham,
Spring Coulee, Alberta.

My dear Sir:

I am much interested in getting your letter and am glad to know that you approve of what I said to the teachers in Calgary a fortnight ago. Anything that I can do for the maintenance of a high standard of teacher I am always most happy to do, for I feel that the future of the country depends very largely upon the personal influence of the teachers.

With regard to the question you put to me in the matter of the liquor law I am afraid I am not able to give any definite opinion, as I am not acquainted with the laws of the different provinces except in a general way. If there is no law in Alberta prohibiting a parent from giving spirits to his children or step-children without first consulting a medical man I do not see how it would be possible to prevent any one acting in such a way. One would hope that there are very few so depraved as to wish to debauch their own or their adopted children , but I presume the best way to deal with such would be through the Children's Aid Society, of which I suppose there is a branch in the Province of Alberta.

Yours sincerely,

President.

January 9th, 1920

Dear Mr. Carson:

Mr. J. J. Gibson has asked me to write a letter to you with regard to certain conditions as to the scholarships about which he was somewhat in doubt. According to the regulations that the Committee adopted these local scholarships would be awarded to candidates from the area which provides the scholarships; in the case of the county, the county area, in the case of the city, the city. They would be awarded to the returned soldiers, or to their children or dependents, and in case of there being more applicants than there are scholarships the award would be made on the basis of merit, chiefly on the school record. The candidate would be allowed to choose any College or Faculty for study, there being no preference except in the case of proceeds of funds which may have been raised for or devoted to specific Faculties, such as the Faculty of Medicine or Applied Science or some College. A general scholarship raised by a county or a city would go to the best candidate in whatever College or Faculty he should desire to study.

I hope this gives you the information which will be of service to you. I trust also that your campaign will be very successful. I look back upon the meeting on Tuesday night with a great deal of pleasure.

With kind regards, I am,

Yours sincerely,

President.

Dear Mr. Butler:

It would be a great pleasure for me to go to Nova Scotia next August and give the address that you ask for before the Provincial Education Association, but I am afraid I cannot see my way to going this summer. There is to be a meeting in Toronto in August of newspaper men from England at which I must be present, and I do not think that I can in addition go to Nova Scotia, much as I would enjoy a trip to the sea at that time.

With kind regards, I am,
